- b) Financial statements are based on historical cost. These costs are not adjusted to reflect the impact of changing value in the purchasing power of money.

### 2 Fixed Assets and Depreciation:

- a) Fixed Assets, including assets purchased from Earmarked Grants, are stated at Cost of Acquisition, less Accumulated Depreciation. The assets purchased from Earmarked Grants are shown as utilisation of the Earmarked Grants and transferred to a separate Fixed Assets Grant Fund. However, assets purchased at Centers allocated to the Trust funds, are accounted as revenue expenditure.
- b) Depreciation on Fixed Assets is provided at the rates prescribed under the Income Tax Rules, 1962, as per the Written Down Value (WDV) Method. Depreciation is provided on the WDV of the block of assets, outstanding at the end of the year which comprises, the Opening WDV as increased by cost of assets acquired, and reduced by the sale proceeds of assets sold, during the year. However, in case assets acquired are put to use for less than 6 months during the year, depreciation is provided on such additions, at fifty percent of the applicable rate. Depreciation on Fixed Assets purchased from Earmarked Grants is withdrawn from the Fixed Assets Grant Fund and credited to Income and Expenditure Account.

### 3. Investments:

Long Term Investments and Current Investments are stated at cost of acquisition.

### 4. Grants:

SPARC receives funds for its activities from various donors for executing specific projects. The
expenses incurred by the Trust are allocated to various projects as per agreement with the

b) Grants received from Donors for Specific Projects etc. are classified as liabilities and the same are transferred as Income to the Income and Expenditure Account, only to the extent of expenditure incurred during the year.

Certain Donors have granted Funds to the organization with a mandate to use the funds for housing, infrastructure and micro credit financing activities, on a revolving basis.
